Quick Draw Tarpaulin Systems™

Part Number Guide

Introduction

Quick Draw Tarpaulin Systems™ is a premium quality brand tarpaulin system for transportation equipment. This *Part Number Guide* is provided to owners of Quick Draw Tarpaulin Systems to assist with the following:

- Understanding naming conventions used for parts
- Identifying required replacement parts
- Selecting proper item ID numbers for replacement part ordering

This guide covers straight flatbed and drop deck Quick Draw Tarpaulin Systems manufactured from about 1996 to the present (2011). The legacy “round top” Quick Draw Tarpaulin Systems manufactured between 1992 to 1996 are not covered by this guide and very few replacement parts are available for these systems (upgrading is highly recommended for owners of legacy systems). If you require further assistance with using this guide or any other concerns about your Quick Draw Tarpaulin System product, please contact us:

Quick Draw Tarpaulin Systems contact information:

* North America only

WARNING THIS GUIDE DOES **NOT** PROVIDE ANY INSTRUCTIONS WHATSOEVER AS TO PROPER PROCEDURES FOR REPLACING PARTS OR PERFORMING ANY REPAIR WORK ON QUICK DRAW TARPAULIN SYSTEMS. IT IS RECOMMENDED THAT YOU HAVE ALL MAJOR REPAIR WORK PERFORMED BY A REPAIR FACILITY THAT IS AUTHORIZED BY QUICK DRAW TARPAULIN SYSTEMS. REPAIR WORK PERFORMED BY UNAUTHORIZED REPAIR FACILITIES AND/OR UNQUALIFIED PERSONEL MAY RESULT IN VOIDING OF WARRANTY, COMPROMISED PRODUCT QUALITY, COMPROMISED SYSTEM PERFORMANCE, COMPROMISED SYSTEM SAFETY AND POSSIBLE INJURY TO THOSE PERFORMING THE REPAIR WORK AND/OR THE OPERATOR OF THE SYSTEM.

Document Release Date: April 4, 2012

1 Conventions

Item ID Number: A system of “Item ID” numbers is used to organize the Quick Draw parts database. These item ID numbers are always specified in a column of each table in this guide. Ordering replacement parts by item ID number will ensure that you get exactly the parts you need.

Lettering on Figures: Each figure contains capital alphabetic letters (e.g. **A, B, C...**) located closest to one of each part shown in the figure to assist with finding that particular part in the associated table listing. The first column of every table listing gives the letter in the figure. The table listing for each figure is positioned immediately following the associated figure.

System Length: “System Length” refers to the nominal length of the tarp system which is usually the same as the nominal length of the flatbed. The exact length of the tarp system and flatbed can vary from the nominal length by several inches. This difference in length can affect the size of certain replacement parts such as tarp panels and track. The exact length of each vehicle is kept on file with the serial number of the tarp system. Sometimes you are required to submit the serial number of the tarp system to order certain replacement parts such that the proper size parts are delivered.

System Height: “System Height” refers to the nominal height of the tarp system which is one of the following:

6’H

7’H

8’H

8’H less 2” (8’H-2) - used on flatbeds with maximum deck heights of more than 60”.

10’H - used for drop deck flatbeds

10’H less 2” (10’H-2) - used for drop decks with maximum deck heights of more than 40”.

For certain replacement parts, you may be required to specify the item ID number, nominal system height and/or the serial number to ensure proper replacement parts are delivered. Some systems have a custom height which is recorded with the serial number.

System Width: “System Width” refers to the nominal width of the tarp system which is different than the nominal width of the flatbed. System widths include the following:

96”W (uncommon)

102”W

108”W (most popular).

For certain replacement parts, you may be required to specify the item ID number, nominal system width and/or the serial number to ensure proper replacement parts are delivered.

Position: A "Position" column is included on many table listings. Position tells you which side of the vehicle the part is used on for parts that are made differently for the left and right sides of the tarp system. The convention is "Left" or "**Left Side**" = Driver Side of vehicle and "Right" or "**Right Side**" = Passenger Side of vehicle (in North America). If the position column is blank in a table, the part is the same for left and right sides of the tarp system.

4 Wheels

Figure 4.1: Wheels and Parts

Table 4.1: Wheels and Parts

	Description	Item ID	Notes
A	4" Diameter Polyolefin Main Wheel with Delrin Bushing & Bushing Sleeve	12235	Backwards compatible with all Quick Draw Tarpaulin Systems manufactured after 1996
B	1-3/4" Diameter Nylon Guide Wheel with 11/16" Stud and Nut (2009 +)	20527	
C	2" Diameter Nylon Guide Wheel with 1/4" Stud (2009 +)	20528	
D	2" Diameter Black Nylon Wheel with 11/16" Stud and Nut	12232	For legacy "Round Top" Quick Draw Tarpaulin Systems manufactured from 1992 to 1996
E	Hollow Axle Bolt with Nyloc Jam Nut (2.100" Length Bolt)	12260	Used for all "dimpled" carriers starting in 2005 and lifter bow hinges
F	Hollow Axle Bolt with Nyloc Jam Nut (2.188" Length Bolt)	12236	Used for all "flat plate" carriers before 2005
G	7/16"-20 Hex Nut Fine Gr. 5 Plated	08846	Included with B and D

Figure 4.2: Wheels and Parts

Table 4.2: Wheels and Parts

	Description	Item ID	Notes
A	3" Diameter Roll-Tite* Main Wheel	19735	Manufactured by Quick Draw Tarpaulin Systems; see note *
B	1-3/4" Diameter x 1" Roll-Tite* Guide Wheel	18841	Manufactured by Quick Draw Tarpaulin Systems; see note *
C	1-3/4" Diameter x 3/4" Roll-Tite* Guide Wheel	20536	Manufactured by Quick Draw Tarpaulin Systems; used on older systems; see note *

* All references to the name "Roll-Tite" refer to the Ontario-based Roll-Tite Inc. which was placed into receivership in February of 2009 leaving its customers with no source for replacement wheels. Quick Draw Tarpaulin Systems began manufacturing Roll-Tite wheels during this time of uncertainty to give existing Roll-Tite customers a source for replacement wheels. These references do not include the newly formed company Roll-Tite Corp. which was established in April of 2009. Replacement wheel compatibility is designed for tarp systems manufactured by the former Roll-Tite Inc. Replacement wheel compatibility is unknown for tarp systems manufactured by the newly formed Roll-Tite Corp.

5 Carriers

Figure 5.1: Carriers

Table 5.1a: Carriers

	Description	Item ID	System	Position	Notes
A	16" Front Carrier	18245		Left	Assembled
B		20333		Right	Carrier Stop (F) not included

J	16" Carrier Lifter Bow Bracket	20712			
K	Rear Carrier Flipper Tab	20711			
L1	3/8"-16 x 1" S.S. Button Head Hex Socket Cap Screw	19917			
L2	3/8"-16 x 1-1/4" S.S. Button Head Hex Socket Cap Screw	19916			
L3	3/8"-16 Nylon Insert Hex Locknut Plated (Nylock)	08790			
L4	3/8" Standard Flat Washer Plated	08923			
L5	5/16"-18 x 2-3/4" Hex Socket Cap Screw Plated	08084			
L6	5/16"-18 Nylon Insert Hex Locknut Plated (Nylock)	08789			

* Carrier stops are used to lock the carrier(s) to the track in any position along the track to prevent the tarp system from rolling due to an incline or strong wind. Carrier stops are installed on the front and rear carriers of the driver side of the vehicle. These can be moved to the passenger side if desired or additional carrier stops can be purchased for installation on all four corners of the vehicle. All front and rear carriers come with mounting brackets for carrier stops.

6 Headboards

7 Bow Assemblies & Parts

In about August of 2006, a design change was implemented for front bows. The present design uses an “Extruded Pull Bar” (see figure 7.1) and the previous design used a “Tube Pull Bar” (see figure 7.2). Replacement parts for both types of front bows are listed and available for purchase.

Figure 7.1: Front Bow (Extruded Pull Bar 2006+)

Table 7.1: Front Bow Assemblies & Parts (Extruded Pull Bar 2006+)

	Description	Item ID	System	Position	Notes
A	16" Front Bow Assembly (for Extruded Pull Bar)	18280	6'H x 96"W		
		18281	6'H x 102"W		
		18282	6'H x 108"W		
		18283	7'H x 96"W		
		18284	7'H x 102"W		
		18285	7'H x 108"W		
		18286	8'H x 96"W		
		18287	8'H x 102"W		
		18288	8'H x 108"W		
		01013	8'H less 2" x 96"W		
		01006	8'H less 2" x 102"W		
		01012	8'H less 2" x 108"W		
B	Front Side Bow (for Extruded Pull Bar)	01000	6'H	Left	
		01001		Right	
		01002	7'H	Left	
		01003		Right	
		01004	8'H	Left

A	Lifter Bow Assembly: Universal	19256	6'H x 102"W		See note below *
		19260	6'H x 108"W		
		19257	7'H x 102"W		
		19261	7'H x 108"W		
		19258	8'H x 102"W		
		19262	8'H x 108"W		
		20303	8'H less 2" x 102"W		
		20304	8'H less 2" x 108"W		
		19259	10'H x 102"W		
		19263	10'H x 108"W		
		20306	10'H less 2" x 102"W		
20305	10'H less 2" x 108"W				
B	Lifter Bow Assembly: Single	01040	6'H x 102"W		
		17683	6'H x 108"W		
		17434	7'H x 102"W		
		18445	7'H x 108"W		
		17664	8'H x 102"W		
		18443	8'H x 108"W		
		20307	8'H less 2" x 102"W		
		20308	8'H less 2" x 108"W		
		17440	10'H x 102"W		
		19452	10'H x 108"W		
		20309	10'H less 2" x 102"W		
20310	10'H less 2" x 108"W				
C	Lifter Side Extension	12204	6'H		
		12201	7'H		
		12202	8'H		
		17797	8'H less 2"		
		12203	10'H		
		20311	10'H less 2"		
D	Lifter Bow Top Extension	18163	102"W		
		18164	108"W		
E	Lifter Bow Plastic Corner	17329			
F	Lifter Bow Hinge Assembly	20312			Includes item 12260 bolt & nut
G	Lifter Bow Extension Peg	17330			

* For replacement lifter bow assemblies and side extensions, a system serial number is usually required for proper cut-size parts. The generic full length parts may be kept in inventory by branches and dealers, or may be ordered by customers; however, these parts need to be trimmed to proper size upon installation.

Table 9.1: Double Hook Rear Braces

Table of Double Hook Rear Braces and Associated Parts

	Description	Item ID	System	Position	Notes
A	Double Hook Rear Brace *	18360	6'H	Left Side	
		18361		Right Side	
		18358	7'H	Left Side	
		18359		Right Side	
		18356	8'H **	Left Side	See notes below **
		18357		Right Side	
		18362	10'H ***	Left Side	See notes below ***
		18363		Right Side	
B	Crank Handle: Short	17742			Most popular
	Crank Handle: Long	17743			
C	Double Hook	18189			Fastened to flatbed
D	Double Hook Spacer Plate	18326			Required for aluminum flatbeds only
E	Slide Guide: Aluminum	18191			For aluminum flatbeds
	Slide Guide: Steel	18692			For steel flatbeds
F	Slide Guide Spacer Plate: Aluminum	18885			For aluminum slide guide (Item 18191)
	Slide Guide Spacer Plate: Steel	19659			For steel slide guide (Item 18692)
G	Aluminum Puck	18192			Welded to rear bow
H	Puck Plate	18193			Welded to rear bow
J	Locking Pin	17782			
K1	1/2"-13 x 2" Hex Cap Gr. 5	08152			Plated
K2	1/2"-13 x 2" Flat Head Socket Cap Screw	05813			Plated
K3	1/2" Flat Washer	08925			Plated
K4	1/2"-13 Nylon Insert Hex Locknut	08792			Plated

* All double hook rear braces (**A**) include locking pin (**J**), all clevis pins and all cotter pins. All other associated parts (**B, C, D, E, F, G, H, K1, K2, K3 & K4**) must be ordered separately.

** All rear braces and rear brace parts are the same for 8'H and 8'H less 2" systems.

*** All rear braces and rear brace parts are the same for 10'H and 10'H less 2" systems.

Figure 9.2: Double Hook Rear Brace Subparts

Tables 9.2a & 9.2b: Double Hook Rear Brace Subparts

Table 9.2a: Double Hook Rear Brace Subparts

	Description	Item ID	System	Position	Notes
A	Hypotenuse Tube	17690	6'H		Includes clevis & cotter pins.
		17692	7'H		
		17694	8'H		
		18498	10'H	Left Side	
		18499		Right Side	
B	Vertical Tube	17674	6'H	Left Side	Includes clevis & cotter pins.
		17673		Right Side	
		17678	7'H	Left Side	
		17677		Right Side	
		17682	8'H	Left Side	
		17681		Right Side	
		17686	10'H	Left Side	
17685	Right Side				
C	Coil Rod *	18183	6'H / 7'H		Replacement requires removal of weld on stopper sleeve (E). See note below *
		18184	8'H		
		18185	10'H		
D	Coil Rod Slider Nut	18523			Includes clevis & cotter pins.
E	Coil Rod Stopper Sleeve *	18422			See note below *
F	Double Hook Receiver *	19139			With holes for locking. Includes clevis & cotter pins. See note below *
G	3/4" SAE Flat Washer *	08949			Plated, see note below *
H1	1/2" Dia. Clevis Pin x 1-1/4"	08020			Plated
H2	1/2" Dia. Clevis Pin x 1-1/2"	08021			Plated
H3	1/2" Dia. Clevis Pin x 1-3/4"	19749			Plated
J	1/8" x 1" Cotter Pin	08026			Plated

* Replacement of coil rod (**C**) requires removal of weld on stopper sleeve (**E**). Replacement coil rod (**C**) does not include stopper sleeve (**E**) or washer (**G**). Stopper sleeve (**E**) and washer (**G**) must be ordered separately if required for coil rod replacement. Stopper sleeve and washer from existing coil rod may be reused if they are in good condition. Stopper sleeve must be re-welded to coil rod to complete replacement of coil rod. To replace a coil rod without requirement for field welding, use assemblies listed in the following table:

Table 9.2b: Replacement Coil Rod Assemblies that Do Not Require Field Welding

Item ID	System	Includes the Following Items
20652	6'H & 7'H	Assembled & welded: 18183 Coil Rod (C), 19139 Double Hook Receiver (F), 18422 Stopper Sleeve (E), 08949 SAE Flat Washer (G)
20653	8'H	Assembled & welded: 18184 Coil Rod (C), 19139 Double Hook Receiver (F), 18422 Stopper Sleeve (E), 08949 SAE Flat Washer (G)
20654	10'H	Assembled & welded: 18185 Coil Rod (C), 19139 Double Hook Receiver (F), 18422 Stopper Sleeve (E), 08949 SAE Flat Washer (G)

Figure 9.3: Single Hook Rear Braces (1997-2005)

B3	Rear Hook Assembly: Extended	18115			See note **
C	Rear Brace Offset Bracket	18423		Left Side	See note **
	Rear Brace Offset Bracket	18424		Right Side	See note **

* Single hook rear braces are no longer installed on systems after 2005. Replacement parts are available.

** Only parts that are different from double hook rear braces are listed in this table. Most parts not shown in this table are interchangeable between single and double hook rear braces.

10 Miscellaneous Items & Lubricants

Table 10.1: Miscellaneous Items & Lubricants

	Description	Item ID	System	Position	Notes
	Quick Draw Tarpaulin Systems: Operator's Manual	20840			
	Quick Draw Tarpaulin Systems: Guide de l'opérateur	20841			French Language Operator's Manual
	X Brace Strap (1"W x 8"L Strap; 1"W x 168"L Strap; Buckle; Wire Hooks)	12393			
	X Brace Bracket (Galvanized Steel)	17737			
	2" Reflective Tape	12299			
	3/8" Black Braided Rope	12338			
	9" Black Rubber Tarp Strap Bungie Cord with S Hooks	12075			
	Heavy Duty Red Grease: Spray Can	12053			Used for lubrication of headboard pipes; headboard gears; and, carrier stops
	Grease: Dura-Lith EP 1 (400g Caulking Tube)	20893			Used for lubrication of 4" wheels and rear braces
	Flush Type Nozzle for 7584 F Grease Gun	14968			Used with 7584 F grease gun to apply lubricant to 4" wheels
	7584 F Grease Gun: Flush Type, 9 Oz. Capacity	14967			
	Silicone Spray: LubriMatic (279 g)	12055			Used for pulling tarp through aluminum extruded bows and pulling weather seal through aluminum extruded track
	Elastomeric Adhesive/Sealant: 300 mL Black Tube	12327			Adhesive used for weather seal on track and headboard bulb seal
	Silicone Tube Aluminum: 300 mL General Purpose	11902			Used as sealant for aluminum die cast corners; seams on front and rear bows; and, seams on headboard
