CONESTOGA XP FLATBED ORDER CONFIRMATION FORM

PLEASE READ CAREFULLY

Thank you for your recent Conestoga order. Aero Industries is committed to providing you with the industry's best products and services. Since your Conestoga is custom-made to your specifications, we will require some detailed information regarding the trailer, the product, and the trailer's availability for installation purposes. To simplify the ordering process and ensure your Conestoga is made to your specifications, you must complete the attached Conestoga Order Confirmation.

Please note the following items before completing your Conestoga Order Confirmation:

- 1) **Section 1 includes pertinent customer and vehicle information. Please be sure to include the Vehicle Identification Number (VIN). This is very important and must be completed.**
- 2) Please choose one (1) product option for sections 2-7. If you have any questions regarding any of these options, please contact our sales department at 800-535-9545.
- 3) Sections 8-9 contain vital trailer and product dimensions that must be accurate to guarantee a properly fitting product. When determining your Conestoga height (section 8), please consider the payload dimensional requirements; and confirm your trailer and Conestoga will be in compliance with any applicable federal, state, or local maximum height regulations. **Please note: accurate dimensions must be provided, and we cannot process an order with incomplete information.**
- 4) Please complete section 10 and fax the Conestoga Order Confirmation to our sales department at 317-244-1311. Within one (1) business day, you will receive via fax a Conestoga Order Acknowledgement that will include pricing, payment terms, and your Conestoga's scheduled completion date.

Important notice: Please note we can only provide an "estimated completion date" until we receive a properly completed and signed Conestoga Order Confirmation. **Once we receive and process your signed Conestoga Order Confirmation, we will then be able to provide a firm scheduled completion date. The scheduled completion date is subject to change if the trailer is not available for installation four (4) business days prior to the completion date.**

Aero is committed to working with you to ensure you receive the product and service you desire, and we will do everything we can to meet your delivery requirements. However, please understand we cannot process orders or assign schedule dates until we have a completed Conestoga Order Confirmation.

Conestoga Unit Height

- 72" 88" 100" 104"
 84" 96" 102" Other Unit Height (upcharge may apply) _____

Conestoga/Trailer Height

Deck Height: Measure the deck height from the ground to the top of the deck.

- Take 4 measurements -
- (1) at the front of the trailer
 - (2) at the center of the trailer
 - (3) at the rear of the trailer
 - (4) Conestoga overall height

IMPORTANT: Before Measuring, to ensure correct Conestoga system height, trailer must be set at normal operating 5th wheel height. Airbags must be inflated to determine maximum deck height. Aero strongly recommends that the tractor intended to be used with the trailer be attached prior to measuring.

Conestoga/Trailer Height Measurements

Enter your measurements here: (1) Front of Trailer: _____

(2) Center of Trailer: _____

(3) Rear of Trailer: _____

Enter the HIGHEST value from lines 1-3 here: HIGHEST POINT of Trailer Measurements: _____

(4) Conestoga Outside Height*: _____

Enter the Conestoga overall height here: Conestoga Inside Height: _____
(When unit is locked in place)

Add the HIGHEST POINT and Conestoga Overall Height: Trailer deck height at Peak + Conestoga Height:

*Actual Height will be 1" higher than listed height

NOTE: Please ensure the Trailer + Conestoga Overall Height meets local, state and federal height regulations!

10

Deck Width & Length

Width: For exterior pockets, measure outside width (include pockets and rub rails).

Length: Measure Deck Length based on the placement of the stake pockets. Internal stake pockets should be included in the measurement, external stake pockets should not.

Trailer Width: _____

Deck Length: _____

Does the trailer have rub rails? Yes No

Does the trailer have stake pockets? Yes No

NOTE: If marked no, trailer will require front end modification to accept bulkhead legs.

NOTE: Do not measure front or rear EXTERNAL pockets.

Note: The Conestoga will add approximately 6" to the overall width of the trailer. All 102" wide trailers will finish approximately 108" wide, and 96" trailers will finish approximately 102" wide. Custom height and width systems may require a 6.75" smooth face bulkhead. Please consult Federal, State, and Local agencies to ensure compliance regarding width regulations. Aero Industries, Inc. cannot ensure that any particular jurisdiction will find that the Conestoga is in compliance with Federal or State regulations and their interpretations. Conestoga conforms to all Federal DOT regulations for width. Please reference DOT #393.106 (d)(1). Trailers delivered beyond arrival date may be delayed beyond stated completion date. **Any changes to the specifications above can be subject to applicable re-stocking and/or labor charges. Aero Industries also reserves the right to change payment terms of orders. ORDERS CANNOT BE CANCELLED.**

Federal Excise Tax Note: Section 4051(a) imposes a 12 percent excise tax on the first retail sale of automobile truck chassis, automobile truck bodies, truck trailer and semitrailer chassis, truck trailer and semitrailer bodies, and tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer. Trucks with gross vehicle weight ratings of 33,000 pounds or less and trailers with gross vehicle weight ratings of 26,000 pounds or less are not subject to this tax. Section 4051(b)(1) imposes a 12 percent excise tax on the price of the installation of a part or accessory installed, or caused to be installed, by the owner, lessee, or operator of any vehicle that contains an article described in 4051(a). This tax only applies to installations made not later than 6 months after the date the vehicle was placed in service. The 4051(b) excise tax on the installation of parts or accessories is imposed on the owner, lessee, or operator of the vehicle on which parts or accessories are installed. Company is not the owner, lessee, or operator of the vehicles on which Company installs accessories. Therefore, Company is not required to pay this excise tax on account of an installation.
